

Katatetsu Roman Kaidou Route

This route has a nostalgic feel as it runs along the Katatetsu Romantic Road, created from a disused railway line, and then along the banks of the Yoshii River. There is much to enjoy, including a dip in the waters of Yunogo Onsen, fresh seafood at Hinase, or why not try a plate of local specialty Tsuyama horumon udon noodles in the castle town of Tsuyama?

With a total length of 765 m, the Bizen♥Hinase Bridge links Bizen-Hinase Town with Kakuijima Island. From the bridge, you can see a sight unique to Hinase; countless oyster rafts bobbing in the sea.

This local dish is made only during winter months using oysters caught fresh each day. The fresh oysters are succulent even after being cooked, and add a luxurious taste to this special okonomiyaki.
